The Advance in Nails.

It is understood that the advance in the card rate on nails from \$\frac{1}{2}\$ to \$\frac{1}{2}\$ 10 per keg, agreed upon in Pittsburgh Thursday, at one of the largest meetings of representatives from the Western mills held for some years, was an action taken independent of the Western Eall Association.

The Advance in Nails. Those who were present at the meeting of envention, were rather reticent abou saying anything concerning the meeting for publication. It is estimated, accord for publication. It is sentimated, according to a Pitteburgh paper, that the stock on hand held by the mills in the Western Nail Association, amounts to 200,000 kegs. Stocks, generally speaking, are low and the demand for nails is growing rapidly.

An Explanatory Card. To the Editor of the Intelligencer.

Sin:—From a communication in you issue of yesterday, I conclude that some parsons have pieced an improper construction upon the action of the M. E. Preachers' Meeting, held on the 5th inst. There is no resolution on our record requiring any of our ministers to preach "against" any man or church, but on the contrary, "to presch one or more sermons on the Holy Eucharist." This they would all no doubt, do during the year in the discharge of pastoral duties, and the resolution is only a suggestion as to the time of presenting this deprine.
